

The CT Professional Timber Producers Association is pleased to partner with the Professional Logging Contractors of the Northeast to bring this highly sought-after First Aid/CPR and Logger Extraction Training back to Southern New England

About the Instructor: Paul Stewart is a licensed Emergency Medical Technician (EMT) from Houlton, Maine. Paul has been a licensed EMT for 27 years. He worked as a logging contractor for 10 years prior to becoming an EMT. Beginning in the 1990's, Paul began working with logging contractors, building safety programs, and providing on-site evaluations of safety practices. He also provides First Aid/CPR training to over 35 logging companies annually and has worked with NPLT for the past 8 years, providing classroom logger safety classes to over 7,000 attendees.

Agenda

- 7:00 am *Registration*
- 7:20 am *Introduction and Announcements*
Jessica Clark & Maggie Rideout,
Professional Logging Contractors
of the Northeast
- 7:30 am *CPR*
This section will cover CPR
administration step-by-step. This
includes training on heart attacks
(what they are), aspirin use, AED
machines, etc.
- 10:30 am *First Aid – Part 1*
This section will focus on common
injuries in the logging profession.
This includes training on bleeding,
bloodborne pathogens, illness in the
woods, emergency plans, etc.
- 11:30 am *Lunch*
- 12:00 pm *First Aid – Part 2*
This is a continuation of First Aid –
Part 1
- 1:00 pm *Advanced Logger Extraction*
This will be outside and will simulate a
situation where a logger has experienced
a serious injury. Students will build a
mechanism to safely remove the injured
logger from a machine to safety. This
will include training on how to use
“Mega Mover” medical transportation
mats.
- 3:00 pm *End of Program, Distribution of
CEU Credits*

Class is limited to 25 attendees per location
